Experience developing in Unity
programming with C#,
Git SCM,
Datastructures.
Linear Algebra,
Collision Detection,
OpenGL,
Mentorship and Coaching,
Microsoft Office and Outlook,
Organized and diligent,
Fast and efficient learner

## Objective

To foster growth and development, individuality, and a non-hostile environment. With knowledge of the game development cycle and first-hand experience with development I am seeking to work for a great company that I can grow alongside.

## Proffesional Skills

- Experience handling projects from start to finish
- Familiar and comfortable with Agile and Scrum
- Experience with JIRA,Mantis and Trello ticketing systems
- Knowledge of C# with emphasis on 3D Game Development

## About me

Being passionate about leadership I decided to pursue a degree in Management with a minor in Leadership. I enjoy group dynamics and challenges that come with developing a project from start to finish. I put a great focus on group dynamics and making sure that those groups are operating efficiently and completing projects in a timely fashion as planned. Video games are an integral part of my life and I want help others enjoy them as much as I do.
